

Policy Number: 9
Effective Date: 10/1991
Revised Date: 5/1/2019
Applicability: Bloodborne Pathogens Exposure Control Policy

Purpose

To ensure all occupational and research activities are conducted in a manner consistent with OSHA 29 CFR 1910.1030 regulatory requirement Bloodborne Pathogens.

Policy

All individuals working in an occupation that may have exposure to bloodborne pathogens have ten (10) working days upon being hired to be trained in bloodborne pathogens and offered the Hepatitis B inoculation. This group includes police officers, special education teachers and those individuals working in a lab where pathogens or sharps are frequently in use.

Additional information may be obtained under the Bloodborne Pathogen Program.
